

FUEL COSTS KEEPING YOU CLOSE TO HOME?

At Cummins MerCruiser Diesel, we're working hard to help you get more from every gallon of fuel. Our revolutionary Zeus pod propulsion system offers up to 35% greater fuel efficiency over conventional inboard systems and supports clean-running EPA Tier 2 emission compliant engines. The system also provides 50% improved range and nearly no limit to top speed, thanks to the most horsepower available in a pod system. All to get you out of the house more — and farther from the marina. Learn how you can beat high fuel costs with Zeus. Call us or visit our website today.
