# Captain's Briefing

## CUSTOMER ORIENTATION

### Helping New Boat Owners Understand, Operate and Maintain Their Engines.

### Thank You for Your Recent Purchase of Cummins MerCruiser Diesel Engines!\*

To help improve your overall boating enjoyment, Cummins MerCruiser Diesel would like to introduce you to your new engine by offering you a complete Captain's Briefing.

The Captain's Briefing will include items such as:

- General Engine Information
- Start Up Procedures
- Orientation of Operation and Maintenance Manual
- Basic Engine Maintenance procedures
- Warranty Coverages

If your boat is equipped with an Onan generator, we will also provide an overview on how to operate and maintain your generator.

The Captain's Briefing is a service offered to you at no charge, and can be arranged by calling your local Cummins MerCruiser distributor. If you are unsure of your closest distributor, you may call 800-DIESELS or check in your worldwide service directory.

This briefing will also register your engines with Cummins MerCruiser Diesel, which enables you to receive the latest news and information regarding your engines. Should you decline this New Owner Orientation, it is important that you still register your engines by completing the attached registration form and faxing it to (843)745-1410 or e-mail the information to wavemas-ter@cummins.com.

**Thank you for choosing Cummins MerCruiser Diesel power in your new boat.**
